JBRO CAPITAL

DIGITAL INFRASTRUCTURE | Public capability profile

INDEPENDENT RESEARCH

Jbro Capital Ltd. is a Korea-based market intelligence and business development company focused on international digital infrastructure.

We support project owners, advisers and institutional counterparties with source-referenced research and preliminary commercial screening.

SERVICES

Data centre research: grid and power milestones, ownership, permissions, commercial readiness and evidence quality.

Financial intelligence: public capital structure disclosures, reported debt financing, maturity dates and financing developments.

Korea-APAC market mapping: selected project, industry and strategic-partnership research.

RESEARCH APPROACH

SOURCE - VERIFY - STRUCTURE - REPORT. We separate publicly documented facts, sponsor claims, assumptions and unanswered diligence questions.

REGULATORY SCOPE

Research is commissioned under written fixed-fee Statements of Work. Jbro does not represent committed capital or guaranteed financing.

Securities solicitation, loan brokerage, investment placement and financial transaction execution are excluded from the public research service.
